

Language planning is a broad field of study that, in response to a perceived language problem or issue, enables practitioners to examine the possible options that speakers may have available to them and recommend a range of potential actions (Eastman 1983, p 2). (1)

—

**Title:** A Proposed Language Planning Process for Xish

1. Define language planning
2. Look at examples Hawaiian, Saami
3. Big picture language

Normalization

(Re)vernacularization

- 1) what is your language ideology?
- 2) what is your dream scenario for a united language ideology?
- 3) how do you prevent ideology discord
