Students with Disabilities or Special Circumstances

Disabilities Support Services coordinates accommodations and services for UAS courses. If you have a disability for which you may request accommodation in UAS classes and have not contacted them, please do as soon as possible (Mourant Bldg · 796-6000 · dss@uas.alaska.edu). Please also see me privately in regard to this course so that we can discuss accommodations necessary to ensure full participation and to facilitate the educational experience. More generally, if you have any problems or concerns regarding this course, please contact me as soon as possible. Your feedback (both positive and negative) is integral to how well this course works! We should strive to respect and value the diversity that exists in UAS classrooms (e.g., age, gender, ethnicity, national origin, disability, geographic backgrounds, political orientation, sexual orientation). While we may sometimes disagree with each other on topics discussed in class, it's important that we remember that appreciating diversity in perspectives is an important part of the learning process. If you ever feel that you are not being given the respect you deserve in class, please let me know.
