

## Lesson Plan

---

### Traveling, Place Names & Going Places

- Read through chapter 6 of *Beginning Tlingit* and/or chapter 7 of the *Beginning Tlingit Workbook*
  - Pay special attention to how the verbs are formed. Are there patterns you can recognize as the verb changes from first, second, and third person?
  - Take a look at postpositions (or those little bits of word at the end of a noun) on page 154 of the *Beginning Tlingit* book. If *sgóondei* and *neildéi* are “to or toward school/ home” what other nouns can you add *-dei* to?
  - Take a look at page 188 in the *Workbook* that has different question particles. What are some question particles you can add into your everyday conversation that would be useful to memorize?
- Test yourself on Quizlet both from the previous term, as well as the one which includes different verbs to start learning
- Listen to the youtube lecture on place names by X'unei
- Think of ways to use phrases about coming & going at home. Can you describe to your children or yourself what's happening as characters travel in a TV show you're watching? Are there words for places you're not sure how to say in Lingít, and aren't in the dictionary? Post them on the discussion board!
- Keep sound practicing! Use the sound practice video or vocabulary in the books, and focus especially on sounds that have not come easy, like *x̣* or *l'* for example.
- Have fun with it, and let us know some things that is working for you as you study. Whether playing at home, creating a mini story, or just constant repetition, if you're comfortable sharing, post it in the discussion board. It may help someone else who might be struggling.
