

Using whatever you have at home (sticky notes, scrap pieces of paper, labels etc.) go around and label a room in your house using the vocabulary from the chapter. Focusing on one room, make a commitment to yourself of using Lingít in that room as much as possible. Encourage your family members to do the same if you're comfortable. You can email or send me photo's if you're comfortable/ post them in a discussion board as well if you're comfortable and able. Otherwise a write-up of which room you chose and the vocabulary you used is okay too. Is the vocabulary that you found you didn't know, and couldn't find in the dictionary? Let me and the class know!
