

# Tlingit Domain Reclamation Project

**Domain:** Domain is a physical or social area where the language is used.

**Register:** A register is the language required to function in a given domain.

**What domain are you reclaiming?**

--

**What is the overall goal of your plan?**

--

**Planning Structure:**

**Acquisition: How will this plan promote the learning of Lingít?**

--

**Use: How will this plan promote the use of Lingít?**

--

**Corpus: What kind of language will this plan target?**

**Status: How will this plan increase the value (perceived or otherwise) of Lingít?**

**Critical Awareness: What are the potential barriers to this plan? How might they be mitigated?**

**Recognizing Success: How will I know this plan is achieved?**

**Monitoring / Review: How will I know this plan is working or not?**
